

# SPIRITS

*This chart shows the major distilleries operating in Kentucky, Tennessee, and Indiana, grouped horizontally by corporate owner, then subdivided by distillery. Each tree shows the type of whiskey made, and the various expressions of each style of whiskey or mash bill, in the case of bourbons. For instance, Basil Hayden's is a longer-aged version of Old Grand-Dad, and both are made at the Jim Beam Distillery. Some of this is imprecise. Buffalo Trace has two bourbon mash bills, but it isn't known which of its many brands are made from each, so this is a rough guess based on online commentary. Willett, formerly only a bottler as Kentucky Bourbon Distillers, has been distilling its own product for about a year; we include the brands that it bottles from other sources for reference. The ages are taken from published age statements if they exist; if they don't, brands have been plotted in the general area where we would guess they belong.*

## BOURBON

### OUR HOUSE BOURBON

Bulleit Bourbon, 45%	3 cl/ cocktail 50/ 110
----------------------	---------------------------

*Bulleit Bourbon is inspired by the whiskey pioneered by Augustus Bulleit over 150 years ago. Only ingredients of the very highest quality are used. The subtlety and complexity of Bulleit Bourbon come from its unique blend of rye, corn and barley malt, along with special strains of yeast and pure Kentucky limestone filtered water.*
